Wound Debridement / Minor Operation Note

Date: 01 Jan 2026

Patient	FICTIONAL PATIENT	**Identifier**	DEMO-001

Procedure and team

Procedure performed: Debridement of superficial lower-leg wound (fictional).

Procedure date and time: 01 January 2026, 09:00 (fictional)

Urgency: Urgent

Indication and preoperative diagnosis: Left lower-leg wound with devitalised skin and subcutaneous tissue.

Postoperative diagnosis: Left lower-leg wound with devitalised skin and subcutaneous tissue.

Surgeon and assistants: Dr Demo A; Dr Demo B (fictional)

Anaesthesia and anaesthetist: Technique recorded in the separate anaesthetic chart; Dr Demo C (fictional).

Consent and safety checks: Consent, identity, procedure and site checks documented in the fictional theatre checklist.

Wound assessment

Site and side: Left anterior lower leg.

Pre-procedure dimensions / depth: 3 x 2 x 0.3 cm; skin and subcutaneous tissue involved.

Tissue appearance / contamination: Devitalised wound-edge tissue; no exposed tendon or bone.

Neurovascular and adjacent structure assessment: Distal perfusion and sensation documented before the procedure.

Procedure

Debridement method and extent: Devitalised tissue removed with sharp debridement to the documented viable margin.

Post-procedure dimensions / deepest tissue removed: 3.5 x 2.5 x 0.4 cm; subcutaneous tissue was the deepest layer removed.

Irrigation and haemostasis: Irrigated; haemostasis obtained.

Closure / packing / dressing: Left open with a non-adherent dressing; no packing.

Antibiotic and tetanus assessment / actions: Individual assessment and any prescribed medicines documented separately.

Completion and handover

Specimens and labels: Specimen details recorded with site and destination.

Estimated blood loss: 20 mL

Instrument / swab / needle counts: Confirmed complete at closure.

Complications and response: None observed during this fictional procedure.

Condition and destination: Transferred to recovery with a documented handover.

Postoperative instructions and responsible team: Individual orders, monitoring, wound review and follow-up to be prescribed by the responsible team.

Clinician: DEMONSTRATION ONLY - NOT SIGNED **Signature:** _____
